Evaluation: OK.

This report is of value as one facet of the nationalist cam-
paign now going on. It is doubtful whether this propaganda
approach will be any less of a dud than ones tried in the past.

It would be of value to discover the relationship of the
Aktionsauschüsse to the Volkswart.

"	MGB-8927	German industrial production in Brandenburg	D

Evaluation: ORE.

It is interesting to note that 65% of production is still carried on in privately owned plants, which dominate several industries like textiles, chemistry, machine construction, etc. Since this is the Berlin area, percentages in other Länder would be useful.

MGB-8884	Wood export plans for 1949	D
----------	----------------------------	---

Evaluation: ORE.

What does this add up to in terms of total production and actual export? Several items in paragraph 2 do not seem to correspond with items in paragraph 1, such as the various kinds of ties and sleepers. Saxony-Anhalt has no rough beech timber in the plan, although credited with such exports in April.
